

# Abhishek Patel

## Full Stack Developer

Performance-driven Full-Stack Developer with hands-on experience in building and scaling SaaS platforms, custom dashboards, and API-first architectures. Skilled in Next.js, React, Node.js, and relational/non-relational databases including PostgreSQL, MySQL, and MongoDB. Currently leading a no-code AI Bots & Workflow Automation platform at Bacancy Data Prophets.

### WORK EXPERIENCE

#### Full Stack Developer

July 2022 – Present

Bacancy Technology, Ahmedabad, India

- Leading a team of 5 developers in building and deploying AI-driven web applications, collaborating closely with AI/ML and data science teams to integrate complex APIs and LLM models for client and in-house products.
- Oversaw code quality, conducted rigorous PR reviews, and enforced best practices to ensure high-quality, maintainable code across all projects.
- Designed and implemented scalable RESTful APIs using NextJS, Node.js, and databases like PostgreSQL and MongoDB.
- Developed reusable utilities and internal tooling, including public NPM packages for product users to embed Bots on their platforms.
- Implemented OAuth 2.0 authentication with granular role-based access control.
- Integrated third-party APIs and authentication flows to let users use third-party services as a part of workflow.
- Implemented RAG Chatbots and block based AI Agents using libraries/frameworks such as Langchain.js, Vercel AI SDK, Pinecone etc.
- Developed a job scheduling and queuing system using libraries like BullMQ and Cron for Workflow Automations.
- Implemented tRPC and Zod along with React Query for end-to-end typesafe APIs.
- Optimized API performance and system reliability using caching strategies, throttling, structured logging (Winston), and detailed monitoring.
- Improved platform responsiveness and backend efficiency, resulting in:
  1. 40% reduction in API latency
  2. 30% improvement in overall system throughput

#### Frontend Developer

July 2022 – July 2024

Yudiz Solutions, Ahmedabad, India

- Built and optimized web apps using HTML, CSS, JS, jQuery, AJAX, and React.js for speed and UX.
- Developed custom hooks, reusable components, and managed global state with Redux in custom dashboards.
- Specialized in pixel-perfect responsive UIs using Tailwind, Bootstrap, Chakra UI, and other libraries.
- Used Next.js for faster site speed, server-side rendering, and enhanced SEO.

### SKILLS

- Next.js
- React
- Node.js
- JavaScript/TypeScript
- GSAP & Three.js
- jQuery
- WordPress
- MongoDB
- SQL
- CSS/Sass
- Git
- Docker

### EDUCATION

#### Marwadi University (GTU)

Bachelor of Engineering

Aug 2018 - April 2022

### OTHER

- Participated in a college hackathon, collaborating with a team to develop innovative solutions.
- Represented College being a Campus Ambassador
- Demonstrated problem-solving skills, creativity, and the ability to work under pressure.
